

I am a cyber security I am in a urge to learn cyber security practical knowledge  
I am passionate in which I don't want to stay average , im not like anyone . which I have  
a goal to become the world's well known cyber security expert . which it involves in the  
securing the system , networks from malicious attackers and protecting the people .i  
am person who knows that hardwork beats talent and which the disciplicine over  
motivation . I aim to be in continuous learning and growth with day by day towards the  
evolving cyber threat . sharpening the communication properly with the members .
